

Case Study: National Eelgrass Summit 2021 in Aomori “Nature Restoration in the Ocean, High School Summit”

Since 2017, Maruha Nichiro Corporation has sponsored the “Nature Restoration in the Ocean High School Summit” held as part of the program of the National Eelgrass Summit. The objective of the summit is for high school students nationwide engaged in efforts to restore the natural environment in the ocean to exchange ideas and information on their projects and to grow as leaders of the next generation.

In FY2022, the event was held in Tateyama City, Chiba Prefecture on Saturday, October 28 to October 30, 2022. Students from 12 high schools around Japan (the original plan was 11 high schools) participated and engaged in presentations of the content of nature restoration activities of local and rivers respectively. Lively discussions were among participants. We were able to present a platform for students to engage in presentations and interactions.
